Dancing has been a part of our journey since primary school, but we began in separate schools. Four years ago, we started dancing together. We began posting dance videos on TikTok, and last year, we took it a step further by creating a joint account. In addition to our shared dance journey, we've been creating choreographies that reflect our unique style. These choreos come to life on Instagram, where we showcase our collaborative dance projects. It's not just about the steps; it's a visual expression of our shared passion and creativity. Our Instagram platform has become a canvas for our choreographic adventures, inviting others to join us in the joy of dance. Our shared passion for dance has not only brought us closer but has also become a platform to express and showcase our joy for movement.

Océane PEREIRA RODRIGUES (DP1ED-1)
